

WHAT ???

What is the NDTMA ???

The NDTMA (Nondestructive Testing Management Association) was formed fifty years ago to provide a forum for the open exchange of managerial, technical and regulatory information critical to the successful management of NDT personnel and activities. The membership is comprised of delegates from member companies involved in the use, practice and promotion of NDT. Although each member company designates one voting delegate, there are no restrictions as to the number of employees who may participate. For the most part delegates are NDT professionals, managers and executives involved in furnishing or using NDT services or products.

The NDTMA is dedicated to the concept that NDT is a profession. On-going objectives are to help NDTMA members, as NDT professional managers, to:

- Expand their business and financial skills
- Expand their people management competencies
- Develop & hone their interpersonal skills
- Be cognizant of & stay informed on health and safety related issues
- Promote and market NDT services both nationally & internationally
- Monitor regulatory requirements & changes, and participate in the rule-making process
- Participate in the development & revision of industry codes & standards
- Promote & maintain high ethical standards & practices within the NDT community
- Increase the quality of the NDT product and the image of the profession
- Keep abreast of technical advances in NDT

MEMBERSHIP APPLICATION

Authorized Signature _____

NDTMA accomplishes these objectives by:

- Organizing & sponsoring an annual conference for professional & management personnel with formal presentations on business subjects such as: management, accounting, marketing, safety, industrial hygiene, human resource management, governmental regulations, personnel certification, legal issues, & NDT technology
- Developing & promoting NDT management sessions in conjunction with other organizations
- Publishing a periodic newsletter for the membership containing items of interest
- Interacting & networking within this association of managers, scientist-entrepreneurs & other NDT professionals.
- Exhibiting NDT equipment at the annual conference
- Maintaining liaison with other professional organizations.
- Acting as the “voice” for the NDT industry in the rule making process on regulatory affairs.

Enhancement of your expertise is vital in today's competitive and rapidly advancing technological community. If you feel you can benefit from association with other NDT managers; to learn, grow, and contribute your knowledge and experience, then we invite you and your Company to join us. We welcome your attendance and participation at our next conference.
